I like summer very much. This doesn't mean that I don't like spring, winter or autumn, but I don't need to get up early to go to school and I needn't do my homework every day in summer. During my summer holidays, I do everything I like most of all. I play football, spend time with my parents and friends. I go swimming with my friends.

Usually, I spend my summer holidays in the country. I like growing fruit and vegetables. My dad always tells me something interesting about plants and nature.

I like to walk in the summer forest with my friends or with my parents. We often go to the river. This year we went fishing with my dad. We got up early, took our fishing rods and went to the nearest lake. We caught a lot of fish. That was amazing.

Life in big cities and villages are different. I like living in villages. Because in villages there are a lot of trees, flowers. Nature is very beautiful. Air is fresh. There are of lot of things to do in villages. You can feed animals, grow fruit and vegetables. But living in cities quite stressful. More noise and dust. Traffics are terrible. However, there is some advantages of living in cities. In cities there is a lot of shops and parks. You can visit zoos, amusement parks and have a lot of fun.
