## INGLIZ TILI 11-SINF

### 1-BILET

1. Complete the sentence.

The teacher completed her report after she **had finished** her lessons.

2. Read the paragraph and tell your opinion.

Most of us never update our skills. We think that whatever we have learned is quite enough. But good is not good when better is expected. Enlarging your knowledge regularly is the key to success. There is a saying. "Sharpen your ax before cutting the tree".

In my opinion, working at your skills very important to succeed in your field. If you work tirelessly on your skills, one day you will definitely succeed. But if you don't work on yourself, someone more knowledgeable than you will replace you some day.

3. What is leadership? What qualities should leaders have?

*Leadership is a set of qualities and skills necessary to bring the team to the desired address. The impact created depends on the size of the combined group and the value created for the entire society in which the leader is responsible. Good leaders ensure that they do not damage parts or the whole team, other teams, as well as future generations.*

*There is always a need for a leader if a coordinated collaborative effort is required. The need for someone to initiate, at least facilitate-lead the torch to show the way. Otherwise, people can live, work and enjoy life well without a leader.*

*Here are the most important leadership qualities and skills for the great leader: Effective communication, integrity, accountability, sympathy, humble, endurance, view, effects, positivity, trust, open-minded.*

### 2-BILET

1. Complete the sentence.

You may not know them. They **haven't lived** here for years.

2. Read the paragraph and answer the questions.

About half of 16 and 17-year-olds in the UK have got jobs, and three quarters of this group also go to school. They do part-time jobs before or after school and at weekends. The most common jobs are babysitting (popular among girls) and paper rounds (popular with boys). Cleaning and working in a shop are also popular jobs. Teenagers do part-time jobs because they want to earn some money. What kind of part-time jobs can students do in Uzbekistan? Do you think doing a part-time job is good? What can students learn from it?

*I think in Uzbekistan, part-time jobs like waiter, dishwasher and sales assistant are very popular among students. But they can't earn too much with those jobs. In my opinion, part-time jobs are useful if they are in the same field which students studying. In other cases, it only distracts them from study.*

3. What is your attitude to smoking? Do you think smoking in all public places should be banned?

*Medical studies have shown that smoking not only leads to health problems for the smoker, but also for people close by. As a result of this, many believe that smoking should not be allowed in public*

places. Although there are arguments on both sides, I strongly agree that a ban is the most appropriate course of action.

Opponents of such a ban argue against it for several reasons. Firstly, they say that passive smokers make the choice to breathe in other people's smoke by going to places where it is allowed. If they would prefer not to smoke passively, then they do not need to visit places where smoking is permitted. In addition, they believe a ban would possibly drive many bars and pubs out of business as smokers would not go there anymore. They also argue it is a matter of freedom of choice. Smoking is not against the law, so individuals should have the freedom to smoke where they wish.

However, there are more convincing arguments in favour of a ban. First and foremost, it has been proven that tobacco consists of carcinogenic compounds which cause serious harm to a person's health, not only the smoker. Anyone around them can develop cancers of the lungs, mouth and throat, and other sites in the body. It is simply not fair to impose this upon another person. It is also the case that people's health is more important than businesses. In any case, pubs and restaurants could adapt to a ban by, for example, allowing smoking areas.

In conclusion, it is clear that it should be made illegal to smoke in public places. This would improve the health of thousands of people, and that is most definitely a positive development.
